CHAIRMAN'S MESSAGE

Dear Valued Customer

We take pride in being Pioneers in manufacturing and suppliers of Engineering Solutions in Automobile Garages in North India. We have achieved remarkable growth over the period of last 10 years through Competence, Competitiveness, timely Delivery, highest Quality Standards and practicing best Manufacturing Techniques. We have automated more than 500 workshops with world class products Vehicle Lifts, Pneumatic hangers and panel boards, Tool Trolleys, Hydraulic Jib Cranes and Presses, Chain Cleaning Machines, Stainless Steel Service Tables, Stainless Steel Air Filter Cleaning Trolley, Battery Charger and Testers, Electrical and Electronic Testing Equipments for E-Bikes.

In addition to the above, we are Authorized Distributors for World Renowned companies like Ingersol Rand for their Air Compressors, Pneumatic Tools and Aluminum Pipe Lines, Hofman and John Bean Wheel Aligners, Tyre Changers, Wheel Balancer Two Post Lifts and Scissor Lifts, PCL-SUMO Tyre Inflator, Nitrogen Generator, Hitachi and Matebo Power Tools, Vacuum Cleaners.

We thank you for your Trust and Confidence placed on us which inspires us to manufacture Reliable, Cost effective and Durable Products. With world class products and service we would endeavor to be a company admired by customers and respected by Peer.

Pritam Singh
Chairman

COMPANY PROFILE

Jaskaran Engineers an ISO 9001: 2015 Company was Established in 2007 by Mr. Pritam Singh, a pioneer in manufacturing and suppliers of “**Workshop Automation Equipments**” in India. Over a period of last 12 years Jaskaran Engineers has established itself as a brand name in high quality workshop automation equipments for Automobile Sector through variety of products and services.

We cater to the needs of Automobile sector and Engineering industry for the products like **Vehicle Lifts, Pneumatic hangers and panel boards, Tool Trolleys, Hydraulic Jib Cranes and Presses, Chain Cleaning Machines, Stainless Steel Service Tables, Stainless Steel Air Filter Cleaning Trolley, Battery Charger and Testers, Electrical and Electronic Testing Equipments for E-Bikes etc.** Each of the above products is developed and supplied keeping in mind latest Technological Development and customer's requirements and preferences.

In addition to the above, through its own plant and its sister concern **JR Enterprises**, since last 25 years, we are Authorized Distributors for World Renowned companies like **Ingersol Rand** for their Air Compressors, Pneumatic Tools and Aluminum Pipe Lines, **PCL-SUMO** Tyre Inflator, Nitrogen Generator, **Hitachi** Power Tools, Vacuum Cleaners.

We also have an in-house Electronic Equipment Assembly and Manufacturing Facility along with professional Electronic Test Lab. Combination of electronic manufacturing with Mechanical Component Manufacturing enables us to produce Cost Effective and Durable Garage Equipments and Products with unmatched Quality.

We are professionally managed Company and have a strong team of **Qualified and Skilled Production Team, Total Quality Management System Team, Marketing Executives and Robust Service Division** which offer **Reliable After Sales Service** for our products. It is because of this reason that we are enjoying very strong customer base in the domestic market which often offer us with repeat orders.

With the Vision to become leading Garage Equipment manufacturer and suppliers we are committed to Complete Customer Satisfaction through Continual Improvement in our Machinery, Training of the Staff and adopting Best Quality Standards.

QUALITY POLICY

Jaskaran Engineers has a vision to become world class manufactures of Garage Equipments.

Shall strive for....

- ▶ Production of world class Garage equipment with quality and reliability.
- ▶ Customer satisfaction through excellence in Service and timely deliveries.
- ▶ Creating a process based culture management throughout the organization.
- ▶ Establish culture of total quality concept and continual improvement.
- ▶ Constant upgrading of technology & human Excellency.

FACTORY AND OFFICE

List of Plant & Machinery

- Mig Welding
- Arc Welding
- Spot Welding
- Tig Welding
- Large Drill Machines
- Heavy Duty Hydraulic Sheet Bending Press
- Tool Room
- Latest Pneumatic & Electric Tools
- Air Compressor with Air Dryer
- Painting Oven
- Latest Electronic Testing & Manufacturing Facility

MICRO CONTROLLER BASED OIL DISPENSING MACHINE

Features:

- Air Operated Diaphragm Pump or Gear Pump.
- High accuracy and reliable PD flow meter.
- Manual Operated driplless Gun.
- Oil supply: Barrel (Barrel quantity can be added in the display), tank or gravity.
- Oil name will be displayed on the screen.
- Max. Dispensing Variants: 12, Totalizer count will be displayed.
- Rigid skid mounted package.
- Applications: Garage, Automotive Industries.
- Media: Diesel, Engine oil and other low viscosity hydraulic oil.
- Operates in 3 modes preset, auto and manual mode.
- Quantity selection will be through the LCD touch display.
- Password Protected.

OIL DISPENSING SYSTEM

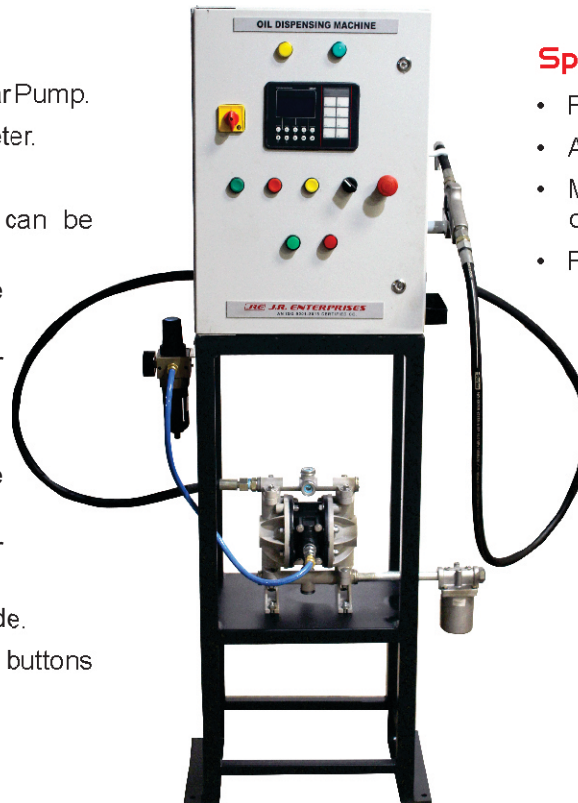

Specifications:

- Flow : 8-12 LPM
- Accuracy: $\pm 2\%$
- Micro Controller Based
- 3.2" LCD Touch Display
- Filter: 149 Micron (Mesh Reusable)
- Input Supply voltage: 220 V AC
- Output supply voltage: 24 V DC
- Hydraulic hose R3 Grade 5 metre
- Size: 450 x 1460 x 300 mm
- Quantity selection will be through the LCD touch display.
- Password Protected.

MINI PLC BASED OIL DISPENSING MACHINE

Features:

- Air Operated Diaphragm Pump or Gear Pump.
- High accuracy and reliable PD flow meter.
- Manual Operated driplless Gun.
- Oil supply: Barrel (Barrel quantity can be added in the display), tank or gravity.
- Oil name will be displayed on the screen.
- Max. Dispensing Variants: 8, Totalizer count will be displayed.
- Rigid skid mounted package.
- Applications: Garage, Automotive Industries
- Media: Diesel, Engine oil and other low viscosity hydraulic oil
- Operates in both auto and manual mode.
- Quantity selection will be through buttons available on the GOC.

Specifications:

- Flow : 8-12 LPM
- Accuracy: $\pm 2\%$
- Mini PLC Based (GOC-Mitsubishi) with display screen, button operated
- Filter: 149 Micron (Mesh Reusable)
 - Input Supply voltage: 220 V AC
 - Output supply voltage: 24 V DC
 - Hydraulic hose R3 Grade 5 metre
 - Size: 450 x 1600 x 300 mm
 - 8 input, 8 output module.

ROTARY AIR COMPRESSOR

Reliability & Efficiency without Compromise - CompAir offers a comprehensive range of lubricated rotary screw air compressors from 2 to 250 kW, airflows from 0.24 to 47 m³/min and pressure ranges from 5 to 13 bars. The design concept is based on absolute reliability and flexibility. This range incorporates the latest technological advances and components which are designed for long service life to offer operators total piece of mind

- High reliability and high quality compressed air
- Easy operation and easy installation
- Small footprint, Energy efficient fully integrated airend design
- Low maintenance costs

PISTON AIR COMPRESSOR

These reciprocating compressors are designed for heavy industrial applications, our compressor with two stage design. Provides the quality & performance for heavy duty applications in automotive and machine shop outlets, on production lines, in construction and wood working shops, along with dry cleaners, car washes and an array of farming applications.

- 100% Cast Iron: Durable heavy duty construction that lasts
- V-Block Configuration: Provides even 360 degree cooling around each head, eliminating hot spots leading to longer life.
- Two-Stage Design: Standard 175 psi durable operation with 250 psi as an option.
- Finger Valves: Stainless steel construction, simple design for easy maintenance.
- Finned Copper Intercooler: Ensure cooler operation even in the most demanding applications
- Overhung Crankshaft: Precision balanced to ensure dependable smooth, low vibration operation.
- One-Piece Connecting Rod: Fewer wearing parts Splash Lubrication: Simple and reliable

COMPAIR REFRIGERATED AIR DRYERS

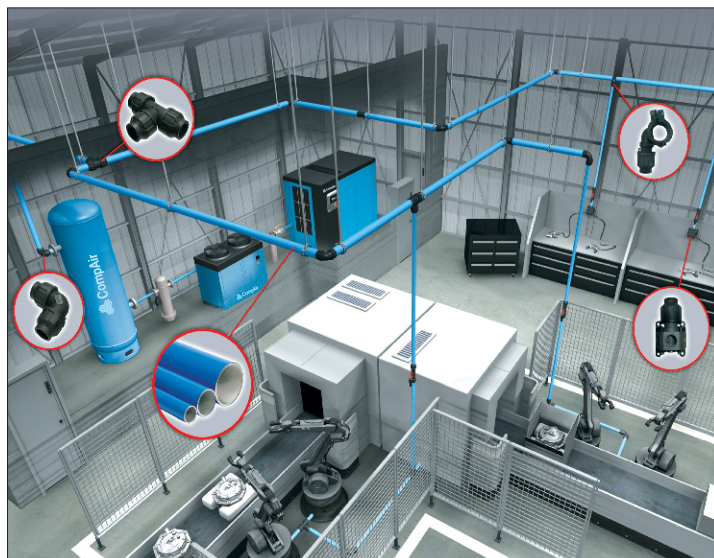

Energy Efficient Compressed Air Dryers
High performance compressed air treatment for clean, dry air

CompAir offers a full range of energy-efficient and environmentally friendly compressed air dryers including refrigerant, modular desiccant, and heatless desiccant as well as HOC dryers. All of our technologies are engineered for maximum reliability, long life cycles, and easy service access, so whichever technology you choose, you can be sure your investment offers undeniable performance.

Grade H (Afterfilter) Grade G (Prefilter) Automatic Drain Valve

Reliability for Any Configuration

SimplAir EPL aluminium pipe is resistant to corrosion and vibration and features unique interlocking components to easily configure your compressed air system.

- Lowers cost of ownership (energy saving)
- Corrosion, U.V., Thermal Variations Resistance
- Light Weight and Easy to Handle
- Easy to Install and Modify
- No Tools Required
- Minimize contamination & Turbulence
- Constant Quality of Air
- Aesthetic Look and clean area
- High Flow Rate
- 10 Years Warranty
- Maximum Performance under all conditions
- Largest size Range 20mm to 158mm dia Pipe
- From one of the world's largest Air Compressor Manufacturer
